

Micron Technology, Inc. (MU)

Technology / Semiconductors / Storage | Scorecard: semiconductors_ai_cycle | As-of 2026-05-06

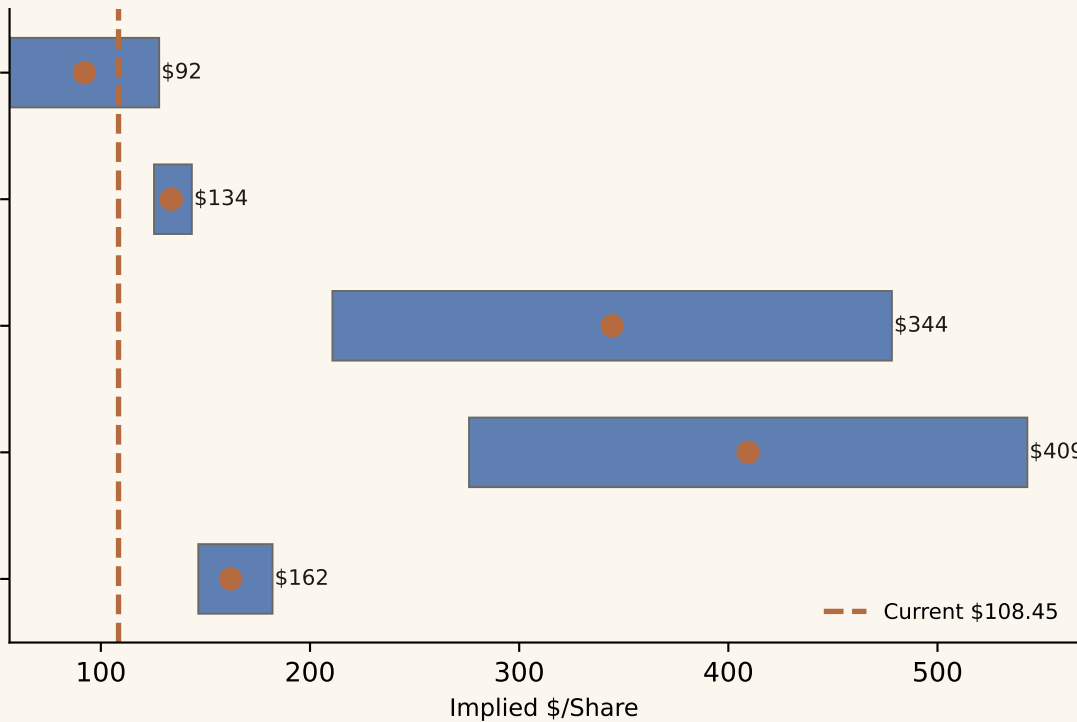

Cycle position — EBITDA margin range

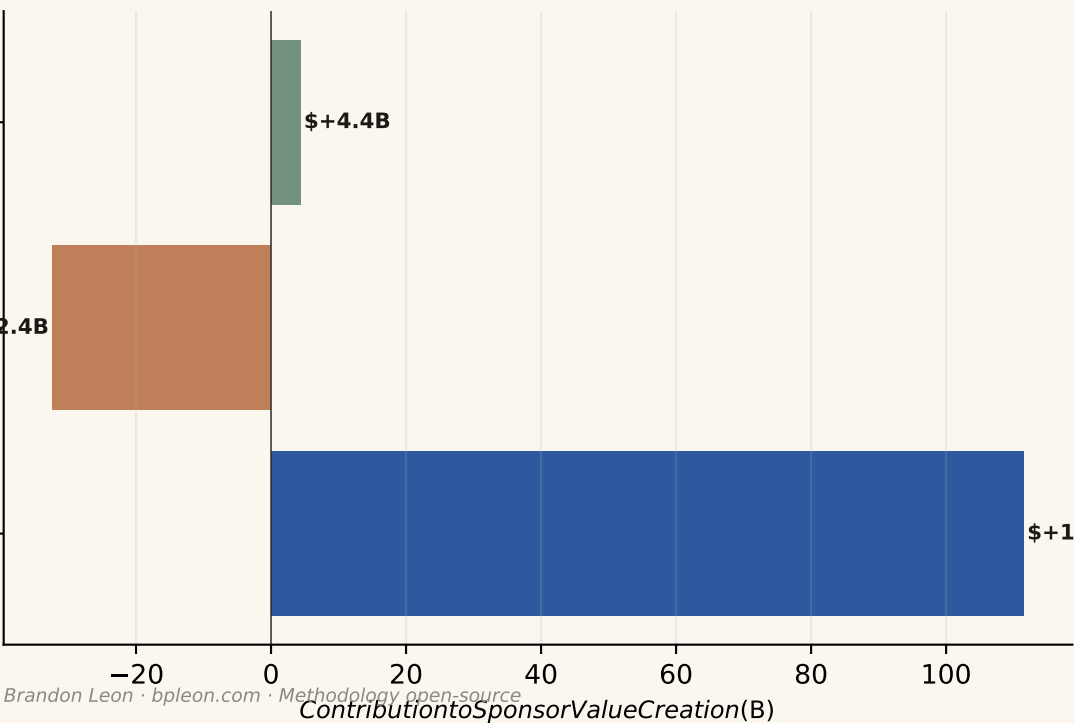

Football field — methodology triangulation

IB Tear Sheet

Cycle phase: Near peak

LBO returns attribution

Headline metrics

Current Price \$108.45
WACC 10.36%
DCF Implied Price \$133.67 (+23.3% vs current)
LBO Sponsor IRR 8.8% | MOIC 1.53x

Reverse-DCF (what does today's price require?)

Implied perpetual growth: -5.00% (preset 3.0%)
 $\rightarrow$ Market implies *NEGATIVE* long-term growth — i.e., the company shrinks in perpetuity. Either market is wrong or the cash-flow profile is structurally challenged.

Sanity checks
